Recommendation letter Ellogon AI BV for Aristi Consulting

---

To whom it may concern,

Aristi Consulting assisted Ellogon AI starting August 2021 up to May 2022 in obtaining a CE certification under the IVDD. Main deliverables were a QMS system according to ISO 13485 and a completed Technical File.

Aristi Consulting combines in depth knowledge on regulatory frameworks with a hands-on attitude. Aristi showed the ability to help us implement all requirements to obtain CE certification and not only offer advice. Having worked for software companies themselves, the Aristi team worked with our team as one to create a tailored implementation for our company. I would strongly recommend working with Aristi Consulting on implementing regulatory frameworks.
